

4. Click on the large arrow. Then select the video from the list on your computer's hard drive or a camera device connected to your computer.

3. Use dropdown list and select "Unlisted"

This screen appears after you select a video to upload.

8. Click here once the upload is complete. Then wait for YouTube to finish processing your video.

7. Double check that this box says "Unlisted". If not, select it from the drop down list.

5. Delete this name and type in the title: Teacher last name. Teacher first name-Student last name. Student first name-Age-Instrument-Level

6. Copy and paste the information from step 5 here as well.

10. Click this button if you have more videos to upload and repeat steps 1-9.

9. Once your upload is complete, a URL address will appear under the video. Copy and paste this link into your student's online registration.

NOTE: Be sure to allow enough time for this process. A 30 second video may take 4 minutes to upload.
